## Coconut Oil Laundry Soap

### THE RECIPE

#### Ingredients:

- 22 ozs Coconut Oil
- 4 ozs Lye
- 7 fl ozs. Distilled Water (water has been reduced, making lye in the soap batter more concentrated. Proceed with caution.)

#### Instructions:

This recipe is designed for making Laundry Soap, it is lye heavy, do not handle without gloves, goggles and a vapor mask. Use best soap making practices, and safety procedures...

Follow basic cold process soap making instructions [here](#).

Everyone does things differently, while this recipe may work perfectly for me, if you change my soap making procedure you could have a different outcome, Use at your own risk...
